Licences, approvals and what follows after setup

Register for corporate tax with the FTA after incorporation. Taxable income above AED 375,000 a year is taxed at 9%; the first AED 375,000 at 0%. [UNCERTAIN]

A free zone company pays 0% only on qualifying income, and only as a Qualifying Free Zone Person: adequate substance in the zone, qualifying activities, the de minimis test, audited accounts and no election out. Income from mainland customers is generally not qualifying. A tax adviser should confirm. [UNCERTAIN]

Taxable supplies and imports above AED 375,000 in twelve months (or expected in the next thirty days) make VAT registration mandatory. [UNCERTAIN]

This VAT point uses expected turnover as a stand-in. The test is taxable supplies: zero-rated exports count, exempt and out-of-scope supplies do not. Confirm the split. [UNCERTAIN]

Keep an ultimate beneficial owner register and file it with the registrar. [UNCERTAIN]

Employees on visas need medical insurance; how salaries are paid and reported follows the zone's own employment rules (DIFC and ADGM have their own employment law). Confirm with the zone. [UNCERTAIN]
